

NOTICE

Sadly, our translator for Kyuuketsu Baiko
Kirishima-kun has retired due to various reasons so the
project has been halted. That's why we're currently
urgently looking for a new translator who would be
interested in immersing himself with Mr. Kirishima so he
could mess his co-workers up some more. If you are
interested, please pm Monaka(me) either through
tumblr or Wattpad. I'll get back to you asap (pinky
promise).

Here's a small imaginary potato for reading this
until the end.
